# SUBJECT INDEX

- Acquired immunodeficiency syndrome, nursing dedicated to, 115
- ACT Exact Compliance Monitor, in behavior measurement, 97
- Activity, electronic monitors of, in behavior measurement, 97
- Addiction, recovery from, in homeless men, spiritual perspectives of, 181
- Adolescents, psychosocial research with, 151
- Advocacy, patient, American Organization of Nurse Executives priorities on, 55, 111
- Aggression, with restraints, in hip repair surgery, in elderly persons, 50
- AHOPE (Alzheimer's-Hospice Placement Evaluation Scale), 187
- AIDS, nursing dedicated to, 115
- Alcohol
  - abuse of, in homeless men, recovery from, 181
  - intake of, osteoporosis and, 173
- Alcoholics Anonymous, spiritual aspects of, 181
- Alzheimer's disease, hospice care for, prediction of, 187
- American Organization of Nurse Executives
  - educational and research priorities, 55, 111
  - evidence-based practice, 222
  - nursing shortage concerns, 162
- Analgesia
  - during childbirth, cultural factors in, 167
  - postoperative, communication of needs for, 70
- Anticoagulation pathway, for quality management, 105
- Anxiety, after myocardial infarction, 60
- Attending model, of nursing, 113
- Autonomy, in nursing homes, 214
  
- Bedford Alzheimer Nursing Severity Scale, 187
- Beepers, two-way, in behavior measurement, 97
- Behavior
  - measurement of, electronic devices for, 97
  - with restraints, in hip repair surgery, in elderly persons, 50
- Benchmarking data, in evidence-based practice, 222
- Block Design Test, for cognitive status assessment, 29
- Blood gas measurement, during laughter, 204
- Blood pressure, during laughter, 204
- Bone loss, educational practices related to, 173
  
- Calcium, in osteoporosis prevention, 173
- Carbon dioxide measurement, in blood, during laughter, 204
- Cardiovascular responses, to laughter, 204
- Caregivers
  - of coronary artery bypass patients, 142
  - of elderly heart failure patients
    - informational needs of, 19
    - involvement in discharge planning, 76
- Chart review, in evidence-based practice, 222
- Chest pain, in myocardial infarction, prehospital delay and, racial factors in, 125
- Childbirth, culturally sensitive care during, 167
- Clinical expertise, in evidence-based practice, 224
- Clock Drawing Test, for cognitive status assessment, 29
  
- Cognitive status
  - assessment of
    - documentation of, 29
    - Mini-Mental State Examination in, 209
    - with restraints, in hip repair surgery, in elderly persons, 50
- Colon, cleansing of, methods for, 83
- Comfort, during childbirth, cultural factors in, 167
- Communications, of postoperative pain management needs, 70
- Compliance, measurement devices for, 97
- Confusion
  - acute, assessment of, 37
  - with restraints, in hip repair surgery, in elderly persons, 50
- Confusion Assessment Method, 37
- Consent
  - for data collection, forms for, 103
  - for research on children, 151
- Coping, laughter in, cardiovascular responses to, 204
- Coronary artery bypass graft, patient education on, 142
- Cost-effectiveness analysis, in evidence-based practice, 222
- Coumadin use, pathway for, 105
- Culturally sensitive care, during childbirth, 167
  
- Data collection, qualitative, 103
- Death
  - dealing with, in AIDS-dedicated unit, 115
  - in myocardial infarction, from prehospital delay, racial factors in, 125
- Decision making, in psychosocial research on children, 151
- Delirium, assessment of, 37
- Delivery, culturally sensitive care during, 167
- Dementia, Alzheimer's, hospice care for, prediction of, 187
- Department of Health and Human Services, research funding by, 165
- Depression
  - after coronary artery bypass graft surgery, 142
  - after myocardial infarction, 60
  - in nursing homes, 214
- Developmental level, of children, psychosocial research and, 151
- Disability, Mini-Mental State Examination scores affected by, 209
- Discharge planning
  - for coronary artery bypass graft surgery, family-focused, 142
  - for heart failure, in elderly persons
    - caregiver involvement in, 76
    - professional-patient partnership model for, 19
  - after surgery, patient informational needs in, 12
- Discomfort, of cleansing enemas, 83
- Documentation, of cognitive status assessment, 29
- Drawing, for psychosocial research on children, 151
- Drug abuse
  - AIDS in, nursing relationships in, 115
  - recovery from, in homeless men, spiritual perspectives of, 181
- Dyspnea
  - after coronary artery bypass graft surgery, 142
  - in myocardial infarction, prehospital delay and, racial factors in, 125

- Editorials  
 attending model of nursing, 113  
 decade of *Applied Nursing Research*, 1  
 research funding, 165  
 research results utilization, 59
- Education  
 nursing, continuing, 111  
 patient. *See* Patient education
- Elderly persons  
 heart failure in, discharge planning for  
 caregiver involvement in, 76  
 professional-patient partnership model for, 19, 76  
 hip repair surgery in, restraints in, confusion and aggression due to, 50  
 in nursing homes, emotional health of, 214  
 osteoporosis-related education for, 173
- Electronic devices, for behavioral measurement, 97
- Emotional aspects  
 of AIDS-dedicated nursing, 115  
 of nursing home residency, 214
- Enemas, cleansing, methods for, 83
- Energy consumption, during laughter, 204
- Episodic clinical consultant model, in academic nursing, 113
- Ethnic factors, in prehospital delay with myocardial infarction, 125
- Evidence-based practice  
 evidence component of, 222  
 staff engagement in, 197  
 WISECARE Project for, 159
- Exercise, in osteoporosis prevention, 173
- Expertise, clinical, in evidence-based practice, 224
- Faculty practice model, in academic nursing, 113
- Falls, as predictive factor, in Alzheimer's disease prognosis, 187
- Family  
 of Alzheimer's disease patients, hospice support for, 187  
 preferences of, in evidence-based practice, 224  
 presence of, during childbirth, cultural factors in, 167
- Family planning, electronic behavior measurement in, 97
- Fatigue  
 after coronary artery bypass graft surgery, 142  
 after myocardial infarction, 60
- Fever, as predictive factor, in Alzheimer's disease prognosis, 187
- Finland, research in, 218
- Fluid absorption, in cleansing enemas, 83
- Foam mattress, for operating table, pressure ulcer prevention and, 134
- Fossa position, mattress interface pressure and, 134
- Fractures, osteoporosis-related, education on, 173
- Functional Assessment Staging Scale, in Alzheimer's disease, 187
- Gay patients, with AIDS, nursing relationships with, 115
- Gel mattress, for operating table, pressure ulcer prevention and, 134
- Global Deterioration Scale, in Alzheimer's disease, 187
- Government, research funding by, 165
- Heart failure, in elderly persons, discharge planning for, professional-patient partnership model for, 19, 76
- Heart rate  
 during laughter, 204  
 monitors for, in behavior measurement, 97
- Hemodynamics, after myocardial infarction, 60
- Heparin use, pathway for, 105
- Hip  
 fractures of, osteoporosis-related, education on, 173  
 surgical repair of, restraints in, confusion and aggression due to, 50
- Holistic care, during childbirth, 167
- Homeless men, in substance abuse recovery, spiritual perspectives of, 181
- Hospice care, for Alzheimer's disease, prediction of, 187
- Human immunodeficiency virus infection, nursing dedicated to, 115
- Independence, loss of, in nursing homes, 214
- Infections  
 control of, data from, in evidence-based practice, 224  
 after coronary artery bypass graft surgery, 142  
 as predictive factor, in Alzheimer's disease prognosis, 187
- Information, for self-care  
 in elderly heart failure patients, 19, 76  
 in surgical patients, 12
- Informed consent  
 for data collection, 103  
 for research on children, 151
- International normalized ratio, attainment of, in anticoagulation therapy, 105
- Involvement, during childbirth, cultural factors in, 167
- Job satisfaction, in dynamic work environment, 46
- Joint appointment model, in academic nursing, 113
- Labor and delivery, culturally sensitive care during, 167
- Lateral positions, mattress interface pressure and, 2, 134
- Laughter, cardiovascular responses to, 204
- Left ventricular function, evaluation of, after myocardial infarction, 60
- Leininger's cultural care model, applied to childbirth, 167
- Loneliness, in nursing homes, 214
- McGill Pain Questionnaire, Short-Form, 157
- Mattress, types of, vs. interface pressure, 2, 134
- Medical Events Monitoring System TrackCap™, in behavior measurement, 97
- Mental status  
 assessment of, 37  
 conditions interfering with, 209  
 documentation of, 29  
 with restraints, in hip repair surgery, in elderly persons, 50
- Miles-Pauchet position, mattress interface pressure and, 134
- Mini-Mental State Examination  
 in acute confusion assessment, 37  
 in cognitive status assessment, 29  
 psychometric properties of, 209
- Mood disorders, after myocardial infarction, 60
- Moonlighting model, in academic nursing, 113
- Myocardial infarction  
 clinical features of, prehospital delay and, 125  
 fatigue in, 60  
 nursing in, pilot study of, 92  
 prehospital delay with, racial factors in, 125

- Narcotics Anonymous, spiritual aspects of, 181
- Neelon/Champagne Confusion Scale, 37
- Neurobehavioral Cognitive Status Examination, 29
- Nursing center model, in academic nursing, 113
- Nursing home residents, emotional health of, 214
- Nursing Practice Support Survey, 197
- Nursing shortage, 162
- Nutrition
- in Alzheimer's disease, hospice support for, 187
  - osteoporosis and, 173
- Obstetrical care, culturally sensitive, 167
- Operating-table mattresses, pressure ulcer prevention and, 134
- Organization, for qualitative data collection, 103
- Organizational climate, in dynamic work environment, 46
- Osteoporosis, educational practices related to, 173
- Outcomes
- of coronary artery bypass graft patient and family education, 142
  - of discharge planning
    - caregiver involvement in discharge planning, 76
    - for elderly heart failure patients, 19, 76
    - of myocardial infarction, measurement of, 60
- Oxford Medilog 9200 Reader, in behavior measurement, 97
